

Covidiot Bingo!				
B	I	N	G	O
Jab or Poke	They can't test for variants	It's just a cold (or flu)	Look at Israel	Plandemic
98%/99% Survival Rate	Masks Don't Work	I know someone that survived it	Sheeple	Fox News
The vaccinated can still catch COVID	I'm not anti-vax, I'm "vax-hesitant"	Free!	I Refuse to Live in Fear	Muh Rights
Follow the Money	Long-term effects of the vaccine	Hospitals are empty	It's all about control	Not FDA Approved
VAERS	How Many Shots	I Live Freely	Medical Records	Bitchute Video

How to Play Covidiot Bingo

All you need to do is find a source of Covidiot. This is easier than it sounds – simply find a source posting on any Social Media site (Facebook, Twitter, TikTok, etc.) and watch the discussion/comments area. A Covidiot is **sure** to turn up – they simply cannot resist an opportunity to disseminate disinformation (or misinformation).

Once you have found your Covidiot source, simply watch what they post. You do not need an exact match for one of the Bingo squares above, you only need to match the concept. For example, if someone says *"I never heard of a vaccine that takes three shots!"* then you can mark off the **How Many Shots** square. Similarly, if a Covidiot complains about how ICU beds are not filling up, you can mark the **Hospitals Are Empty** square.

Enjoy playing Covidiot Bingo and remember not to waste your time trying to educate them – they are likely too far gone.
