How to Play Idiot Republican/Rightist Bingo

All you need to do is find a source of idiotic right-leaning people. This is easier than it sounds – simply find a one posting on any Social Media site (Facebook, Twitter, etc.) and then check out their profile and look for mindless and sheepish activity like reposting idiotic memes or "information" from sites like BitChute, OANN, Newsmax, Fox News, etc. It will not take long - they simply **cannot** resist opening their mouths thinking they know something everyone else does not. (Protot: *They do not.*)

Note that you do not need an exact match for one of the Bingo squares above, you only need to match the concept. For example, if someone says "You just keep on doing what they tell you," then you can mark off the **Sheep!** square.

Enjoy playing Idiot Republican/Rightist Bingo and remember not to waste your time trying to educate them – they are likely too far gone.
